

WATER RESOURCES DEVELOPMENT ACT 2010

Project/Study/Activity/ Language Request Name	Project Location	Corps District	Purpose of Request	Estimated Cost (if applicable)	Corps Report: (Y/N/Not Applicable)	Modification of existing authorization?	Non-Federal Sponsor
	City/County						Name
Cedar River, Cedar Rapids, Iowa	Cedar Rapids	Rock Island District	<u>The City of Cedar Rapids is requesting authorization for construction of a project prior to completion of the feasibility study. The City has requested flood risk reduction measures on both sides of the river to a level sufficient to provide protection from the 2008 flood event. The cost of any construction project that may be recommended has yet to be determined. My office will keep the committee updated as the City of Cedar Rapids and the Rock Island District of the Army Corps of Engineers make further decisions and the report is completed.</u>	The construction cost has not yet been determined as the Final Report has not been completed.	No, the final report is expected to be completed in December 2010.	No	City of Cedar Rapids
Des Moines Recreational River and Greenbelt, Iowa	Fort Dodge	Rock Island District	Legislative adjustment of the existing Greenbelt authorization boundary to construct the Fort Dodge Riverfront project as intended.	Modification of the existing authorization will not increase the project cost.	N/A	Yes, Sec 203 FCA 1958; Chapter IV SAA 1985; Sec 111 WRDA 1976; Sec 102 PL 99-500; Sec 604 WRDA 1986; Sec 122 E&WDAA, 2003; Sec 3068 WRDA 2007; Sec 14221 F, CE&A 2008; and Sec 115 E&WDAA.	City of Fort Dodge
Missouri River Tributaries, Iowa	Between the Nishnabotna River basin in southwest Iowa to the Big Sioux River basin in northwestern Iowa (including the Iowa Great Lakes)	Omaha District	To provide the Secretary the authority to conduct basin wide studies for flood risk management, channel/ecosystem restoration, and infrastructure protection in the tributary watersheds to the Missouri River.	N/A	N/A	No	Iowa Department of Natural Resources
RiverVision Floodplain Management Demonstration Project	Davenport	Rock Island District	The City of Davenport's intent is to demonstrate innovative sustainable floodplain development with some flood damage reduction. The city's proposed improvements are part of its RiverVision Plan, released in 2004. The Corps has not conducted a benefit/cost analysis. The city has not indicated a desire to participate in the Corps' study process. The Corps would enter into a cooperative agreement with the city to participate in design and construction.	\$30,000,000 (\$15,000,000 Federal and \$15,000,000 Non-Federal)	No	No	City of Davenport
